Parker
 Duofold

THE ONLY PEN CONVERTIBLE FROM
 POCKET STYLE TO DESK STYLE
 (AND VICE VERSA)

And Guaranteed for 25 Years!

WHEN you buy a Parker Duofold, you really become the owner of two pens—although you only pay the price of one; for every Parker Duofold is so designed that it can be instantly converted from a pocket pen to a desk pen, and vice versa.

All that is necessary to do is to remove the pocket cap and filler cap, and screw into the place of the latter the taper tip supplied with every Parker Pen Stand—an operation which takes only 10 seconds. Yet dual duty is only one of Parker's many exclusive features.

47 Improvements

Parker alone offers you 29 patents and 47 improvements in fountain pen construction. Its strong, jewel-smooth nib is guaranteed to give 25 years of perfect service. Its press-button filling device prevents leakage, because it is hidden away from harm beneath a leak-proof, ink-tight cap. And its ink-capacity is double that of most other pens. Parker comes to you in five distinctive colours: Lacquer Red, Jade Green, Lapis Lazuli Blue, Mandarin Yellow, Black and Gold, and the Duofold de Luxe in Silvery Pearl and Black or Green and Pearl, and there is a nib style to suit every hand.

Only the Parker serves as two Pens in one without extra cost. Take from pocket, attach slender taper, and you have a Desk Pen at will.

When you have decided which of these prizes you will need—according to the money you have to spend—use the enclosed order form.
